I am new to the Philipsburg PA (Centre Co.) area and am interested in joining the Wood Duck Chapter of TU. I was speaking with the wife of the treasurer of the same. She explained when the TU hatchery was here in Glass City the membership and attendance at meetings was greater than it is today. She was telling me it was nothing to see 30+ at the meetings before the hatchery closed (long story though) now its 3 members. I would like some insight from other TU members as to whether I should join the TU here (since there are less members and less involvement) or would it be advised to join another chapter close to here. I am also trying to stir some interest in the Wood Duck Chapter as it is greatly needed.
