yep taters feel pain 🙄

yes jack they should. im tired of people thinking that it is so darn important to harvest trout. its ridiculous. you mean to tell me that people cant have fun fishing unless they kill a trout? then why not allow netting or snagging them. ah, because that wouldnt be sporting and would have no recreational value. or would it? i mean if killing trout means recreation then why not 🙄

its because of sport only anglers that fight so dang hard to help trout ...that the big fish are there to catch! not because of harvesters who fight so dang hard to keep fish. if they keep them all there wont be any to catch....bottom line.

Wow!!! Although I agree with what you are saying, I think it is preaching to the choir. Even the first guy said he rarely keeps trout.

Now the Amish on the other hand... To them, C&R is a waste of time. They keep everything they catch, and what they don't eat becomes fertilizer. Somebody needs to convince them that carp are good eating.
