I have caught a couple this year...and at least one per year for the last 3 years or so. I caught almost all of them (incl. the 2 this year) in Meadow Run. It could be that the state for one reason or another stocks the Yough / Ohiopyle area more frequently with them than in other areas. When I was younger and growing up on the border of Chester and Delaware counties I never caught one...and I hooked into many, many trout. The last one I caught was pretty hefty (19" and a fat 2-3 lbs.) and I will post its picture that I took before releasing it when I get home later. All I know is that they are real pretty fish...stocked as they may be.
