Do you want to save money on gym fees and still get a good workout? Do you have Sunday mornings free? Do you love the way a thick Hemlock forest looks with a frosting of snow? Do you want to be involved with a conservation project that has both observable and measureable results?

Please help with the DFTU Diversion Well that makes Stony Creek a fantastic fishery.

<http://www.dftu.org/div.well.htm>

We currently have a severe manpower shortage, if new people do not help than the fishery will crash. Since the wells went in, Stony Creek has changed from a put 'n take fishery to a stream with holdovers and even some wild fish. If we cannot continue with the work at the well, this stream will soon revert.

Be a part of a successful program!
