Mine are in the works and I'll update as soon as they go out.

The recipe:

Hook: Daiichi 1730 Size 12

Thread: Black

Tail/Legs: Black Goose Biots

Rib: Hot Yellow & Black Wire-Medium

Thorax: Golden Stone Antron Dubbing

Wing Case: Black Pheasant Tail

Bead: Black Size 1/8

This is a new pattern and is untested, hopefully it produces fish for you guys. Success stories are most appreciated!

JayL, knowing how much you "despise" all things Pittsburgh, I'll be happy to tie yours with Green & Black wire and black dubbing instead. Just LMK. 😁
