Hooked on Podcasts

URL:

Lately I have found several websites offering fly fishing podcasts. They are great to download and listen to at work. They are primarily based out west but their tactics hold true everywhere.

Has anyone else found web pages with podcasts? Here are the ones I have found:

<http://www.flyfishradio.com/>

<http://www.askaboutflyfishing.com/>

<http://www.itinerantangler.com/podcasts/>

Enjoy,

Steve
