Maurice,

Just to give you an idea on the delaware we use 6 to 8wt. rods with shooting heads..We have caught them to 10lbs.right now is the time to go..They will jump like a brookie and run like a big brown..In all I think they fight like their name. I had one run into the backing once never landed, just saw it...huge..They seem to tolerate the lower river and actually like it..some have been caught as far south as trenton in the summer...I kinda wish mother nature would fix the genetics and start a new species....
