Sandfly: beautiful fish! None of mine were close to that size.

Maurice: thanks for the info. 1 tiger trout per thousand stocked - so I guess they're really not that rare then. Like I said, it's odd that in 25 years I've been fly fishing, I never caught one until now

I caught 3 of them in the Yough, as for my buddy too, so maybe the fish comission is putting more of them in that area for some reason.
