Cabin for rent in the Yellow Creek area.

Very nice 1200 square foot cabin located probably 3/4 of a mile from the fly only zone. The edge of our 60 acres is probably 200 yards from Yellow Creek. Cabin has three bedrooms which includes the 15x20 master bedroom which has a king size bed.

Cabin sits a 1/4 mile back in so you don't have to worry about any neighbors. Property is also surrounded by gamelands on two sides.

I'm not the world's best fly fisherman but I'll give you my thoughts as well as point you in the right direction depending on what you have in mind.

Here's a link to some photos of the cabin.
