Ok, doesnt seem to be many takers on this one so Im gonna change things up a little.

-Boat with rod holder, anchor kit, swivel padded seat and motor mount for \$275

-Boat with the above options and the Minnkota trolling motor, battery and battery charger \$350

-Minnkota trolling motor, battery and battery charger \$100

Hopefully Ill get some bites on this one, I really would like to use the money from this boat as a way to offset the price of kayak. So I hope someone on here can take this and get more use out of this cool little boat than I can.

Thanks for looking and tight lines

Bob
