I've always been curious about doing this too. I see lots of streams along the pike that look fishable. One that I see that Ryan H might know more about runs across the pike westbound just past the Rt28 Oakmont exit. Theres even a big turn that takes you far off the pike for safe parking. There are also lots of little windy meadow streams in somerset county as you drive east. The Juniata near Bedford comes to mind as does the Letort in Carlisle. I'm less familiar with the eastern part as I get off and on that road as quickly as possible, usually. This would be a great trip to log. Might even make driving the pike worth the cost and danger.
