You know the old saying...you can have it good or you can have it cheap or you can have it fast...anyway...

My first pair was a pair of Proline, neoprene chest waders. 50 bucks...lasted me 10 years...replaced them with Cabelas breathables for 100 bucks. Look in Walmart or Dicks for Hodgeman's waders. You should have your pic of breathable or neoprene...should be less then 75 bucks at the Mart..less than 90 at Dick's.
