Cabelas also has a 66 or 24 piece eastern fly assortment that has most of the flies you're already planning on getting, plus several others that could be good to have. The 66 is \$70 and the 24 is \$25. I just happened to be reading through the fly fishing catalog when i read this post and figured I'd throw that out there. Also if you apply for a cabelas credit card they give you \$20 towards your next purchase.
