I bought a Hobie Maui yak second hand, really cheap. Put a decent seat, a fly rod holder, a spinning rod holder and an anchor into it. Only used it locally twice. I take it to the beach and to my in-laws who live on a lake in Va. We have a sound side house this summer so I hope to get a lot more use than usual out of it. This is like mine but mine is orange. Some guys have theirs so decked out they look like they should fly.
