Goodtimes guys. Thanks for the fun. Good seeing everyone. Big thanks goes out to David for driving us home safely in blizzard conditions. Looking forward to going back soon.

I learned a few things yesterday. 1. Take your sunglasses off before you put your headlamp on. 2. Take the wet waders and boots outta the car when it is below freezing. 3. The river changes from year to year. Look at spots that have never been productive. Break your old "I know it habits. "
