Buy new furled leaders from Feathercraft. They have a tiny metal ring instead of a large loop. Just slip the tippet through the ring and tie improved clinch. I have used these leader for 3 years for 99% of dry fly fishing and about 50% of nymphing. These leaders last forever(???), well mine are 3 years old and still in perfect fishing condition.

Feathercraft has a decent website, but I recommend calling and asking for the company founder, Ed Story. The guy has fished all over the world for many years. I feel like I get real extra value by talking to Ed.
