Go to the local hardware store and buy Lexol (tube), put some in a small jar and add some Tolenol (paint thinner) now brush into all your seams works even when they are wet.. youuse it to cover pathes to...better than Aqua-seal...

Sandfly, I googled "Lexol" and all I am coming up with is a brand of leather conditioner. Is this what you meant or do you have the name wrong? Also, what is the ratio of thinner to Lexol or what is the consistency of the sloution once mixed?
