I know that beast was caught in MI, but I would have to say, of all the freshwater fish found in PA, the muskie is the king of gamefish with respect to both size and fight....a freshwater tarpon with teeth!

I've caught a few smaller ones, 20 - 30+ inches on a fly rod. I've hooked a few big ones, but didn't stand a chance of landing them without a wire leader and a whole bunch of luck. They are amazing fighters.
