I have been interested in trying to get out and catch a musky for a while now. Just ordered an orvis 11' 8wt switch rod today for everything from stripers off the beach to steelhead up at the salmon river this February (really looking forward to that trip, anyone interested in going shoot me a pm) I don't see why the rod wouldn't work for muskies too. If anyone wants to try and get out on Marsh Creek or the Schuylkill River when the water warms up a bit shoot me a pm. I have a kayak and a pontoon but I would also be interested in doing some wading.

Fred you have to pass the test first to see if your Musky Jam worthyDo you have any credentials ?
