Fred you have to past the test first to see if your Musky Jam worthyDo you have any credentials ?

Nothing like that in freshwater. Heading up to Salmon River for steelhead with Rod from the LLFS first week of February(anyone interested in going let me know). Kayak fishing down the shore for blues and a nice 31" snook from a kayak down at my uncle's house by Pine Island sound. Love it down there. The water is sooo shallow, not many boats flying around in the mangroves. Some days you can see tons of tailing redfish other days you might not see anything. The snook was hanging out by a dock light just after it got dark out. I usually visit them twice a year and Im hoping to get down there for tarpon season in the spring.
