Best fly box?

I have a few boxes and styles. I am in the market for a new one. I was wondering your opinions on the best style boxes on the market.

I have several foam insert boxes and I am not a fan. I also have a Meiho box which is well made and very easy to get flies out of. My only issue is the biggest they come are 14 compartments. I was looking at the Wheatley compartment boxes but as much as I like my flies, I am not gonna spend \$120 on a box. So whats the best bang for my buck?

Thanks
