I get the Plano clear compartment boxes. They are cheap. You have a ton of size varieties. And they are very cheap. If you happen to break one...its less than 5 bucks to replace it. The most expensive box I've ever bought was for nymphs an streamers...one that has the foam on both sides...One ripple, one flat. I think it was 7 bucks at cabelas.

Kind of like this [Dry fly box](#) for dries

or this [Foam box](#) for nymphs and streamers
