Dave,

Good article, it definately has my blood pumping to hit the Potomac this year a couple times with musky being the target. I've seen several of the beasts cruising and blowing up bait out there, and I've finally got the equipment (Canoe) to cover some water. If you find any articles or information on Musky fly fishing rigs please share it. I have an eight weight rod and I am assuming a 50 lbs flourocarbon tippet with large clousers or even popping bugs would work, but I am not real sure. I guess we'll have to do some field research. 😊
