just thought I'd move this over to the events section. looks like we have quite a few interested in meeting up and discussing/planning/dreaming about wild trout streams in our little part of the state.

anyways, looks like Saturdays work for most, so let's try for Saturday Jan. 23, Primanti's in Cranberry Twp, between 1-2 in the afternoon. sandwiches, some beers, trout talk. (really, what else is there?)

if this doesn't work, let us know, nothing is written in stone, we have all winter, and it looks like it's gonna be a long one!
