I use only braethables and fish all winter. They are from Sir Francis and have a STORM wetsuit zipper up front. They are tailored nicely, not baggy for longer walks and the zipper makes them easy to put on and take off. Also great for relieving yourself. As for layering, I wear poalrfleece pants and, if very cold I will add UnderArmor coldgear leggings. For my feet, a pair of merino wool liner socks under a pair of rag roll hiking socks.
