Being a Scot myself and since I live in the Southeast PA region, I'd be glad to take you fishing and show you some of our great streams. There are plenty of them and I've fished maybe 50 of them. You can PM me and I'll send you more information. I was in Scotland in 2001 and wanted to fish, though I didn't that time. But I did make it to Skye and stayed at teh Macdonald B & B. The Lord of the Isles welcomed me home, which still brings tears to my eyes and told me I could fish anywhere on Macdonald Land that I wanted to. I'd say that's pretty generous.

Love that country and I hope to return soon and do some fishing.

Chaz Macdonald
