The PFBC is the correct place to inquire and/or complain. It is puzzling that you received no reply. Perhaps you used too general an e-mail address. I would suggest looking up your local district and placing a call and asking to speak to a WCO. Then persist in being transferred to the person who can authoritatively answer one or two questions:

1. Is it lawful to stock a Class A stream on your own property; and
2. If not, what can be done to stop it.

Good luck.
