This thought really troubles me

..."I would personally kill every brook trout in Pennsylvania and protected cutthroat in Yellowstone if it guaranteed that my family would forever be safe from a suicide bomber."

While I agree with the emotion and sentiment of the comment it begs the question...What the hell are we fighting and dieing for if we are willing to have nothing and just exist?

Or more importantly, after spending 100s of Billions, is there any guarantee that we are safe from suicide bombers, or even *safer*. I answer: No. 🙄
