The Youth Fly Fishing World Championship will be held IN PENNSYLVANIA on August 3-10 this year. We are looking for volunteers to act as Controllers for this event. The duties of a Controller are as follows:

CONTROLLERS

1. Controllers will be responsible for no more than two competitors at any one time.
2. Controllers will be responsible for accurately recording on the competitor's score card details of each eligible fish, including the length to the nearest millimeter and the time of capture. All unused portions of the scoring section of the card must be crossed out by the controller at the end of the session. If it is feasible to have self-copying paper, the original of the scoring card will be given to the sector judge, the duplicate will be given to the competitor.
3. Controllers will be responsible for warning competitors if any breach of the Competition Rules and their Modifications appears probable.
4. Controllers must record any infraction of the Competition Rules or their Modifications and report this information to the sector judge or to the International Organizer.
5. Controllers may have other duties assigned to them by the International Organizer or by the sector judge.
6. The host organization is responsible for recruiting controllers for members of the host country team from nationals of other countries.
7. The arrangements for ensuring that controllers are knowledgeable, competent and conversant with these Competition Rules, and any Modifications, are to be reviewed and approved by the FIPS-Mouche Board.
