lj - The answer can be found here:

http://www.usyouthflyfishingteam.com/pdf/final_programmeusa.pdf

There are five sectors in the competition:

2 on Spring Creek

1 on Fishing Creek

1 on the Little Juniata River

1 on Lake Perez

The sessions I listed in my first post are the times for ALL the sectors, regardless of venue. Those are the times and dates to come out and watch the kids fish.

Tom - There were a lot of factors involved in picking the dates for this event other than "prime fishing" opportunities. They picked the best compromise available. They had to work around a lot of events, such as PSU football games, etc. Can you imagine trying to hold this event on Spring Creek in the heart of the sulphur hatch, around opening day of trout season, or during a PSU home game? We all know what things are like up there at those times.....Ed 😬
