you can fish cased cadis anytime , they are hatching from april till oct. during the hatch i would fish that or the bright green caddis , or a emerger (part. soft hackle) to match the size and color or of course duns if they are taking them which is pretty obvious do to rise form ...lol i guess start at the bottom and work your way to the top , no takers , switch size and repeat , no takers switch colors and repeat , or tie on a streamer and follow jayL.....
