you can fish cased cadis anytime, they are hatching from april till oct. during the hatch i would fish that or the bright green caddis, or a emerger (part. soft hackle) to match the size and color or of course duns if they are taking them which is pretty obvious do to rise form ...lol i guess start at the bottom and work your way to the top, no takers, switch size and repeat, no takers switch colors and repeat, or tie on a streamer and follow jayL......
