Dear Jack,

That's great news! Now I won't have to sell my boat and get a bigger one!

I wear my life jacket when I fish from my float tube. It's a pain in the butt, but it's the law so I comply. I don't think it should be the law when fishing or boating in a hard shelled boat though. People have to make their own decisions at times, the State doesn't need to be making them for all of us.

If you are in high, rough, cold water in a small boat, kayak, or canoe and don't wear a life jacket well then that's your problem, there is no reason why it needs to be my problem as well.

Can you tell I'm a Libertarian at heart?

Regards,

Tim Murphy 😊
