URL:

I have whats called a U-Boat with TU emblems on it. I couldnt resist the price but havent found myself using it for 2 yrs. I cant charge more than I paid for it as its against policy at my work.

Taken out of the box once but never used. \$30.00 OR **free if someone can find me a connection to the lavender colored san juan material I've been searching for. A very dull pink.**

Basically the tubes gathering dust and needs a good home. 😊
