I looked for the access fund, whatever it was/is called on the PFBC website and could not find it. Has the program been eliminated, or is it buried somewhere in the site? I suggest it be displayed front and center on the site. Further, making it an option for donating each year when you buy your fishing license (similar to the check the presidential election fund on our tax forms). You should be able to donate any amount each year when you buy your license, either on-line or at an issuing agent.
