The key is it is controlled. We wouldn't have to go crazy with it but on a prime waterand location I think a rational way to acquire access permanently.

Chaz,

I think what you said here makes some sense. Its not possible nor wanted for all PA waters. Sure would be nice to have a tract of Warriors Mark Run , Spruce (bigger than what we do have), Cedar Run, Elk and many others. No reason that the BEST pa has to offer needs to be ALL posted.

Good thought.
