Dear silverbutcher,

Something else you might want to consider is fishing for species of fish you cannot fish for in your home country of Scotland.

A buddy of mine took a fellow from England fishing one summer a couple of years ago. The man had a great time catching sunfish and smallmouth bass that he had no opportunity to fish for in England.

Many people here in the States take those fish for granted, but they can be a much more cooperative quarry to pursue during the heat of July and there are some good streams not far from Villanova where you can catch good sized bass and sunfish.

Another piece of advice is that you may want to check out the PA Fish Commission website, [http://sites.state.pa.us/PA\\_Exec/Fish\\_Boat/mpag1.htm](http://sites.state.pa.us/PA_Exec/Fish_Boat/mpag1.htm), and see if you can purchase your fishing license on-line prior to your trip. I know the service is available for folks here in the States who are visiting Pennsylvania, and it will save you the hassle of trying to find a store that has non-resident licenses. If international purchases are allowed all you need to do is just click on the header "Get Your License" in the upper right corner of the main banner and you can purchase your license and print it out on your home computer.

Regards,

Tim Murphy 😊
