Def go with the #2 mention the cabelas dry plus 2 waders i got the boot foot felt sole ones they rule!!! they are loose enough to wear all the under gear you gotta! i use them all year long and do alot of hardcore cold fishing 3 pairs of socks 2 layers of lower thermals plus pants then 3 to 5 layers up top they are also extremely bearable in the summer or warmer early springtime they last around 2 years "severe" use without any leak defects and are easily worth the 100 bucks just treat them regularly with a coat of armour all !!!
