The question is "would you pay to fish unstocked wild trout streams". Reisica falls and lititz Run in the conservancy don't count.

My answer....I paid John Hamer to fish Spruce Creek 15 years ago, well I gave him five bucks cuz he was whining about how much it costs to feed the trout and how all the guys who come to fish and are granted permission never pay. I don't care if he used it to buy pringles, if it meant he stopped yelling at me, it was worth the money.

I guess most of those trout were probably stocked too.

I am in favor of fishing by permission only if the landowner has reservations about leaving the property open without restriction.

So was this a yes or a no...
