So I nail knotted (4 tries...lol) a piece of 30lb to the line and put a perfection loop on the other end. I know 30lbs is to heavy cause the loops to damn stiff but I had it laying around and I couldn't get to the store. I need to get practicing....lol

I think I'm gonna try OlyphantLucky route next time. (Flyshack is out of stock.) The nail knot with 30lb was a pain in the arse, let alone with something thinner. I have some shopping to do. 🍷

Thanks for all the suggestions. I'm sure I'll need more.
