Don't know about you but the last few days I have begun to pour over "Trout Streams of Pennsylvania", the gazetteer, Meck and Wolf.

I would have hit up Armstrong's TU book but it is out on loan.

Getting the streams I want to fish firmly entrenched in my fly flying receptors in my brain. (The choices are limited only by imagination and time really)

I have at least 10 streams and probably more I want to fish immediately.

Hey, heard birds chirping this morning- I am readying myself.
