I just wear jeans under my waders in the spring and fall, and on hot summer days I wear light-weight (like nylon) shorts. If it's really hot and I don't have to do a lot of walking through high grass and weeds, I'll wet wade like you do. In the Poconos woods you have to be careful of ticks, and wet wading may not be advisable in situations like that. In the winter you have to start layering and wearing polar tech and fleece type clothes.

P.S. I was just in Brownsville last week. Didn't have time or plan to do anything but business (in Matamoros), but you got me thinking about red fish in South Padre. Next time I'm there I'll have to plan on doing that. Never fished for reds before. Is South Padre particularly good for them?
