You will eventually have more patterns than you need , it just happens , my vest wieghs 70lbs (not really but it's way too heavy) .....don't get crazy at first ..... the list MKern posted would be a great place to start , if the fly fishing bug really bites you , before you know it you'll have plenty of flies , if you decide to tie your own flies get in on the fly swaps that happen on here , they're cool and you get an assortment of patterns. Remember to HAVE FUN!!!
