Been through a few different vests/packs trying to find the perfect one. So far I am very happy with this . . . .

This pack is roomy, can be worn standalone of combined with one of a few different Simms backpacks for when you need larger capacity for rain jackets, etc. I teamed mine up with the Simms Dry Creek Day Pack, though if the Simms Headwaters Day Pack had been around when making the decision I may have leaned that way due to larger capacity than the Dry Creek Day Pack.
