I was just wondering what you need to bring as far as fly tying tools goes. Do you need to bring your own vise and other tools and materials?

Feel free to bring your tying stuff, but remember, there is limited table space/elbow room. If you can keep you tying stuff on the floor, and just have out what you need, it'll be easier on you. We're gonna have to rotate tyers to allow everyone that wants to tie a chance to do so. Kinda like a Chinese fire drill with tying stuff. 😊
