Here is a vote for a canoe. I fish a lot from kayaks and love it but in the last year I have fished more from a canoe here in PA. A major issue to consider is getting the boat on your car. Since you've already got the racks there's no problem there but consider the size and weight of the boat and esp the height of your car.

Here's a review I wrote last summer on a canoe I purchased and how I solved the problem of getting it on my car:
