I guess the biggest variable would be how much are you willing to spend. That may help determine what you end up with. I think you could probably get loaded, unloaded, on and off the water a little quicker with a Yak...no assembly required.

poke around this site a little.

<http://www.austinkayak.com/>

I have bought accessories from them and they are a good company but I don't think I'd buy a yak from Texas...the site will allow you to shop around, however.
