Received this book as an early birthday gift this weekend. The girlfriend has really learned how to buy for me.

Mike, the book is head and shoulders better than I was expecting, and I was expecting a good book after hearing the favorable reviews. I have read about 80% and scanned the parts I haven't yet gotten to, and it's all good stuff. Well done.

I agree with gfen. It's one of the more attractive books on my shelf, and will get at least a few months coffee table duty.

I recommend it, skybay.
