I only suggested 16 patterns, more than anyone else, but not by a huge number.

My point is that you suggested 2-4 sizes for each of those patterns, with the total reaching close to 50. From someone who's been in the sport a while I think it's a good list, but as I note everywhere, I'm cheap, and there's no way if I had never fly fished before I'd go out and buy all of those just to start up.
