All very good advice.

Another subject you may need to think about (and get advice here) is how to set up your rig and even how to cast your setup to avoid nasty tangles since most wet fly fishermen use at least two flies.

**Might not be a bad idea to start a new post on this subject.**

to get input from the board.

I used to fish wet flies almost exclusively when I first learned to fly many years ago and IMHO is a technique grossly under-utilized today.

Good luck

Tom
